Pedagogy:

While introducing sociology as a social science emphasis should be laid on the distinctiveness of its perspective rather than on its substantive themes of study.

For effective teaching and meaningful learning, illustrations may be drawn from relevant empirical studies.

Throughout the course, conscious effort should be made to drive home the relevance and significance of sociology for understanding society and in attempting to solve its problems.

Pedagogy:

It may be noted that the course plan is sufficiently board based to divide it into two courses. Or one course may be culled out depending on the desired thrust and focus.

This course, especially the first section , is communicating the message that methodologies and methods do not evolve or emerge in a vacuum. Thus, the teacher is expected to constantly connect research methods to a theoretical framework so as to explain explicitly the linkages between theory and practice.

Discussions and practical exercises may form an integral part of the course. Daily discussion on specific topic among students will provide feedback to the teacher and also arouse the interest of the students.

A field visit may also be organized depending upon the resources, time and convenience. Students may be made to do exercises in class such as the construction of questionnaires, schedules etc. and also test them in the field so as to sharpen their research skills. The section on statistics should also be rigorously explained along with adequate exercises.

Singh, K.S.: People of India.

Pedagogy:

While discussing the substantive themes and issues in relation to religion, the focus should be on the distinctive analytical perspective of sociology/ anthropology rather than on the normative perspective of theology/ ethics.

The course should be briefed by an appreciation of the diversity of religious experiences. Since religion is a socially sensitive phenomenon, the tendency to condemn or exaggerate religion in general or any particular religion should be guarded against.

For effective teaching and meaningful learning, illustrations may be drawn from local/regional contexts and related to daily life and relevant situations.

Pedagogy

The students should be provided an opportunity to observe the working of the police, judiciary and prisons of the region. They should be taken to modern jails, reformatories, Borstal Homes and Drug De addiction Centers to see for themselves the working of these institutions and to interact with both the staff and the inmates of these institutions. Special sessions may also be organized for interaction with some of the leading and knowledgeable functionaries of the criminal justice administration system. All this will go a long way to stimulate their interest in the study of the course.
